Professional Summary

Motivated and dedicated undergraduate student in Professional Computer Engineering at National University of Skill (NUS), Hamedan. Skilled in multiple programming languages with a keen interest in cybersecurity and hands-on practical work in network security. Actively looking for internship opportunities and conferences to expand knowledge and contribute to real-world tech environments.

AREAS OF EXPERTISE:

- Programming in C#, Python, HTML, CSS, JavaScript, PHP, Java, and Kotlin
- Frontend and backend web development basics
- Basic software development and scripting
- High interest and beginner-level practice in network and cyber security

WORK EXPERIENCE:

Software Development Intern

Apr 2021 – Apr 2022

- Learned foundational web development technologies including HTML, CSS, and JavaScript.
- Assisted new interns with onboarding and development environments.
- Completed assigned tasks within ongoing large-scale software projects.

Freelance IT Technician (Mobile Computer Services)

Apr 2021 – Present

- Installed Windows operating systems and essential software/games.
- Provided hardware support including cartridge refills and basic printer maintenance.
- Delivered on-site troubleshooting and technical assistance.

Academic Project Assistant & Freelance Writer

Oct 2023 – Present

- Completed academic projects and research papers for university students.
- Assisted with coding assignments and report writing across technical subjects.

Internet Café Owner & Manager

Jul 2024 – Present

- Provide digital services including printing, typing, scanning, and online applications.
- Oversee daily operations, customer service, and basic hardware maintenance.

Cybersecurity Intern

Rahbord Amn (Network Security Company)

Dec 2024 – Present

- Learning fundamentals of network security, penetration testing, and vulnerability analysis.
- Assisting in hands-on projects focused on infrastructure protection.

EDUCATION:

Bachelor's Degree in Professional Computer Engineering

National University of Skill (NUS), Hamedan, Iran

September 2021 – Present

Focus: Programming, software engineering, and network foundations

ADDITIONAL SKILLS:

- Programming Languages: C#, Python, HTML, CSS, JavaScript, PHP, Java, Kotlin
- Languages: Persian (native), English (intermediate)
- Soft Skills: Teamwork, Self-learning, Adaptability
